Allowable Subject Matter

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance:

While trim molding for circumscribing a glass panel is well known in the art to comprise a back wall, opposing side walls defining a channel with the back wall, and a third side wall extending from an end of the back wall in a direction opposite the first and second side walls, prior art fails to show a double-sided adhesive foam tape disposed on at least one of the back wall or side wall of the interior of the channel section to bond the glass panel to the molding. Prior art also fails to disclose the method of installing a fixed glass panel within an opening of an automobile body comprising the steps of providing said trim molding as described above and bonding the peripheral edge of the glass pane to the molding with the adhesive foam tape.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
